Material Safety Data Sheet

1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product Name: CORDTEX DETONATING CORDS

Other name(s): CORDTEX 3.6W, CORDTEX 5W, CORDTEX 5W U/G, CORDTEX 5P, CORDTEX 10P, CORDTEX PYROCORD, CORDTEX 70P, DETONATING CORDS

Recommended Use: Detonating cord for initiating charges.

Supplier: Orica Australia Pty Ltd
ABN: 004 117 828
Street Address: 1 Nicholson Street
Melbourne 3000
Australia
Telephone Number: +61 3 9665 7111
Facsimile: +61 3 9665 7937

Emergency Telephone: 1 800 033 111 (ALL HOURS)

2. HAZARDS IDENTIFICATION

Based on available information, not classified as hazardous according to criteria of NOHSC; NON-HAZARDOUS SUBSTANCE.

Classified as Dangerous Goods by the criteria of the Australian Code for the Transport of Explosives by Road and Rail; DANGEROUS GOODS.

Risk Phrases: Risk of explosion by shock, friction, fire or other sources of ignition.

Safety Phrases: Keep away from sources of ignition - No Smoking. This material and its container must be disposed of in a safe way.

Poisons Schedule: None allocated.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Product Description: Continuous PETN explosive core enclosed in plastic tapes and fibres with an outer sleeve of textiles or plastic. Odourless.

Components / CAS Number Proportion Risk Phrases
Pentaerythritol tetranitrate (PETN) 10-80% R3
78-11-5

Product Name: CORDTEX DETONATING CORDS
Substance No: 000023668401

Issued: 07/09/2005 Version: 3

Page 1 of 6
Material Safety Data Sheet

Non hazardous component(s) to 100%

4. FIRST AID MEASURES

For advice, contact a Poisons Information Centre (Phone eg. Australia 131 126; New Zealand 0 800 764766) or a doctor at once. Construction of the product normally prevents contact with explosive component, however, in the event of exposure:

Inhalation: Remove victim from area of exposure - avoid becoming a casualty. Remove contaminated clothing and loosen remaining clothing. Allow patient to assume most comfortable position and keep warm. Keep at rest until fully recovered. Seek medical advice if effects persist.

Skin Contact: If skin contact occurs, remove contaminated clothing and wash skin with running water. If irritation occurs seek medical advice.

Eye Contact: If in eyes, wash out immediately with water. In all cases of eye contamination it is a sensible precaution to seek medical advice.

Ingestion: Rinse mouth with water. If swallowed, do NOT induce vomiting. Give a glass of water. Get to a doctor or hospital quickly.

Medical attention and special treatment: Treat symptomatically. Treat as for exposure to nitrates. May cause methemoglobinemia. PETN is a vasodilator. Maintain blood pressure by fluid administration. (1)

5. FIRE FIGHTING MEASURES

Hazards from combustion products: On burning under confined or semi-confined conditions, some oxides of nitrogen and/or carbon will be present. Brown fumes indicate the presence of toxic oxides of nitrogen.

Precautions for fire fighters and special protective equipment: Explosive material. Avoid all ignition sources. Risk of explosion by shock, friction, fire or other sources of ignition. In case of small fire where the actual explosive is not involved, carefully remove explosive to a safe distance, otherwise evacuate area immediately and allow to burn. Do NOT fight fire.

Hazchem Code: E

6. ACCIDENTAL RELEASE MEASURES

Emergency procedures: Clear area of all unprotected personnel. Shut off all possible sources of ignition. Handle with care. In the case of a transport accident notify the Police, Explosives Inspector and Orica Australia Pty Ltd (Telephone: 1800 033 111 -- 24 hour service) and/or Orica New Zealand Pty Ltd (Telephone: 0800 734 607 -- 24 hour service).
Material Safety Data Sheet

Methods and materials for containment and clean up: Collect and seal in properly labelled containers.

7. HANDLING AND STORAGE

Conditions for safe storage: Store material in a well ventilated magazine suitably licensed for Class 1.1D Explosives. Store away from incompatible materials described in Section 10. Store away from sources of heat or ignition.

Precautions for safe handling: Avoid skin and eye contact. Do NOT subject the material to impact, friction between hard surfaces nor to any form of heating. Protect ends of cords from contact with moisture, and oil. Handle with care.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Occupational Exposure Limits: No value assigned for this specific material by the National Occupational Health and Safety Commission.

Engineering controls: Natural ventilation should be adequate under normal use conditions.

Wear standard safety equipment - overalls and safety shoes. Always wash hands before smoking, eating, drinking or using the toilet.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state: Article. Flexible cord with a white powder core.
Colour: Outer coverings of textiles or plastics of various colours.
Odour: Odourless
Solubility: Insoluble in water.
Specific Gravity: 1.77 @ 20 °C (for PETN)
Flash Point (°C): Not applicable.
% Volatile by Volume: 0
Melting Point/Range (°C): 141.3 (for PETN)
Decomposition Point (°C): >150 (for PETN)

10. STABILITY AND REACTIVITY

Chemical stability: Detonation may occur from heavy impact or excessive heating, particularly under confinement.

Conditions to avoid: Avoid exposure to heat, sources of ignition, and open flame.

Product Name: CORDTEX DETONATING CORDS
Substance No: 000023868401
Issued: 07/09/2005
Version: 3

Page 3 of 6
Material Safety Data Sheet

Incompatible materials: Incompatible with combustible materials. PETN is incompatible with oxidising agents, reducing agents, acids and alkanes.

Hazardous reactions: Explosive material. Hazardous polymerisation will not occur.

11. TOXICOLOGICAL INFORMATION

The construction of these articles should prevent any chemical contamination. No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

Ingestion: Swallowing can result in nausea, vomiting, diarrhoea, and abdominal pain. Other symptoms include headaches and dizziness.

Eye contact: May be an eye irritant.

Skin contact: Repeated or prolonged skin contact with PETN may lead to irritation.

Inhalation: Not a likely route of exposure due to the physical form of the product. Inhalation of PETN may result in respiratory irritation.

Long Term Effects: No information available for the product. Available evidence from animal studies indicate that repeated or prolonged exposure to a component of this material could result in effects on the blood system. (1) Blood effects include lowered blood pressure and methaemoglobinemia. (1)

Toxicological Data: No LD50 data available for the product. For the constituent PETN (2):

Oral LD50 (rat): 1660 mg/kg

12. ECOLOGICAL INFORMATION

Ecotoxicity Avoid contaminating waterways.

13. DISPOSAL CONSIDERATIONS

Disposal methods: Small quantities of damaged or deteriorated explosives may be destroyed by inclusion in a blast hole containing good explosive(s). For large quantities of damaged or deteriorated explosives notify Orica Australia Pty Ltd and/or Orica New Zealand Pty Ltd.

Product Name: CORDTEX DETONATING CORDS
Substance No: 000023868401 Issued: 07/09/2005 Version: 3
14. TRANSPORT INFORMATION

Road and Rail Transport
Classified as Dangerous Goods by the criteria of the Australian Code for the Transport of Explosives by Road and Rail; DANGEROUS GOODS.

UN No: 0065  
Class-primary: 1.1 D Explosive  
Proper Shipping Name: CORD, DETONATING

Hazchem Code: E

Marine Transport
Classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea; DANGEROUS GOODS.

UN No: 0065  
Class-primary: 1.1 D Explosive  
Proper Shipping Name: CORD, DETONATING

Air Transport
TRANSPORT PROHIBITED under the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air in passenger aircraft and cargo aircraft.

15. REGULATORY INFORMATION

Classification: Based on available information, not classified as hazardous according to criteria of NOHSC; NON-HAZARDOUS SUBSTANCE.

Risk Phrase(s): R2: Risk of explosion by shock, friction, fire or other sources of ignition.

Safety Phrase(s): S16: Keep away from sources of ignition - No smoking.  
S35: This material and its container must be disposed of in a safe way.

Poisons Schedule: None allocated.

All the constituents of this material are listed on the Australian Inventory of Chemical Substances (AICS).

16. OTHER INFORMATION

Reason(s) for Issue:
Revised Primary MSDS
Change to Product Name

This MSDS summarises to our best knowledge at the date of issue, the chemical health and safety hazards of the material and general guidance on how to safely handle the material in the workplace. Since Orica Limited cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, assess and control the risks arising from its use of the material.

If clarification or further information is needed, the user should contact their Orica representative or Orica Limited at the contact details on page 1.

Orica Limited's responsibility for the material as sold is subject to the terms and conditions of sale, a copy of which is available upon request.
