

B-Line™ Detonating Cord

Description

B-Line™ detonating cord provides non-electric initiation of blast patterns for underground development blasting. It is used in conjunction with Orica non-electric *Exel™* assemblies in-hole. *B-Line™* detonating cord provides a flexible cord for easy knot tying and reliable connections via the *Cobra™* connectors of *Exel™* assemblies.

Benefits

- Easy to make knotted connections
- Hold their knots in both hot and cold temperature conditions
- Stand up to tough development conditions
- Facilitates rapid identification on the face

Features

- Flexible construction
- Soft pliable plastic finish
- High tensile strength
- Brightly colored smooth finish

Properties

Nominal Core Load		Nominal Diameter		Break Load		Color	Packaging Spools Per Case
g/m	gr./ft	mm	in.	kg.	Lbs.		
5.3	25	3.1	0.121	45	100	Bright Orange	Four with 150 m/492 ft.
							Two with 300 m/984 ft.

Handling and Initiation

B-Line™ detonating cord may be cut using a sharp knife or anvil-type pruning shears.

B-Line™ detonating cord may be initiated by itself or higher coreload detonating cords or by a high strength detonator.

B-Line™ should not be used in-hole to initiate explosive charges due to its soft exterior jacket.

Packaging

B-Line™ detonating cord is spooled and packed in fiberboard cases.

Storage

For best results, store under moderate temperatures and dry conditions in a well ventilated, approved explosive magazine.

B-Line™ Detonating Cord

Hazardous Materials Shipping Description

B-Line™ is Cord, Detonating,
Class and Division 1.1D, UN 0065, PG II
