## SECTION 4- FIRST AID MEASURES

### General Advice:

Not applicable; this is a packaged product that will not result in exposure to the contents under normal conditions of use. In the event of contact, administer first aid appropriate for symptoms present.

### Eye Contact:

Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

### Skin Contact:

Wash off immediately with soap and plenty of water, removing all contaminated clothes and shoes. If skin irritation persists, call a physician.

### Inhalation:

Move victim to fresh air. Give artificial respiration ONLY if breathing has stopped. Give cardiopulmonary resuscitation (CPR) if there is not breathing AND no pulse. Obtain medical advice IMMEDIATELY.

**Ingestion:** Rinse mouth. Harmful if swallowed. Seek medical attention IMMEDIATELY.

**Notes to Physician:** No information available.

## SECTION 5 – FIRE-FIGHTING MEASURES

**Flammable properties:** Product burns if ignited, with possible transition to detonation. May ignite or explode if heated under confinement.

**Suitable extinguishing media:** DO NOT FIGHT FIRES INVOLVING EXPLOSIVES. Evacuate surrounding areas. When controlling fire before involvement of explosives, fire-fighters should wear positive pressure self-contained breathing apparatus (SCBA) and full turnout gear. Water may be applied through fixed extinguishing system (sprinklers) as long as people need not be present for the system to operate. Water may be used on small fires.

**Unsuitable extinguishing media:** DO NOT FIGHT FIRES INVOLVING EXPLOSIVES.

**Specific hazards arising from the Chemical:**

DO NOT FIGHT FIRES INVOLVING EXPLOSIVE MATERIALS. Immediately evacuate all personnel from the area to a safe distance. Guard against re-entry. This product is a high explosive with a mass detonation hazard. Thermal decomposition can lead to release of irritating gases and vapors.

**Protective equipment and precautions for fire fighters:**

As in any fire, wear self-contained breathing apparatus pressure-demand, NIOSH approved (or equivalent) and full protective gear.

## SECTION 6 – ACCIDENTAL RELEASE MEASURES

**Methods for containment:** Collect loose or spilled solid material for storage or transport to secured magazine.

**Methods for cleaning up:**

Review fire and explosion hazards before proceeding with clean up. Remove and protect ignition sources. Wear protective equipment during clean up. Mop up water using non-sparking tools. It is suggested that only personnel trained in Emergency Response should respond. Verify complete account of product(s). Notify authorities and follow applicable spill reporting requirements.

## SECTION 7 - HANDLING AND STORAGE

**Handling:** This product is an explosive and should only be used under the supervision of trained personnel. Protect containers from physical damage. Keep away from incompatible materials, heat, sparks, flames and other ignition sources. Avoid rough handling.

**Storage:** Store under moderate temperatures recommended by a technical services representative. Store under dry conditions in a well ventilated magazine that has been approved for explosive storage. Do NOT store explosives in a detonator magazine or detonators in an explosive magazine. Keep away from heat, sparks and flames. Keep containers closed. Explosives should be kept well away from initiating explosives; protected from physical damage; separated from oxidizing materials, combustibles, and sources of heat. Keep away from incompatibles.

## SECTION 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION

**Engineering Measures:** Full-handling precautions should be taken at all times.

**Personal Protective Equipment**

**Eye/Face Protection:** Safety glasses with side-shields are recommended to prevent eye contact.

**Skin Protection:** Long sleeved clothing. Impervious gloves.

**Respiratory protection:** Use a NIOSH-approved respirator or equivalent during post-detonation clean up operations.

**Hygiene Measures:** Handle in accordance with good industrial hygiene and safety practice.
